Education -

Bachelor Of Technology (CSE-AIML)

CGPA - 8.13

Class 12th (CBSE)

Percentage - 84.6%

Kendriya Vidhyalaya No.1 Sagar | 2019-20

Lakshmi Narain College Of Technology & Science

Class 10th (CBSE)

Percentage - 71.4%

ST Mary's Convent School | 2017-18

Skills -

Programming Language: Python

Frontend Web Development: HTML, CSS, JavaScript

Others: Google Cloud Platform, MySQL, DSA

Projects

Crop Disease Detection Model

Technology Used - Python

- Utilized Convolutional Neural Networks (CNNs) to achieve precise and seamless image detection capabilities.
- Enabled users to diagnose diseases accurately by inputting relevant data into the model.
- Model trained on more than 200K images dataset.

Stone, Paper and Scissor Game (Link)

Technology Used – Python

- Designed and implemented a game logic algorithm for a stone-paper scissors game.
- Developed comprehensive instructions for the game, effectively communicating gameplay rules and guidelines to users.

Achievements -

- Participated in Smart India Hackathon 2023.
- Participated in Google Cloud Arcade (Jan 2023-Dec2023)
- Participated in Google Cloud Study Jams(x3)

Certifications -

Programming for Everybody (Getting started with Python Coursera)

Jan 2023 – Apr 2023

Programming Essentials in Python (Cisco)

Oct 2022 - Dec 2022
